## our Ambitions

# Cabernet Sauvignon

The illustrious grape variety often referred to as the "King of Grapes" born in the Bordeaux region of France, where it thrives in the region's unique terroir. Its deep-rooted history showcases the profound connection between this grape and the country's winemaking legacy. Cabernet Sauvignon's journey from Bordeaux to the world is a testament to France's vinicultural expertise. The grape's global popularity is a tribute to the country's enduring influence on wine culture. Its bold flavors and structured character are a reflection of the meticulous care taken by French vintners in their pursuit of perfection.

# Merlot

If Merlot had a homeland, it would definitely be the Saint Emilion, Bordeaux region of France. Its silky texture, luscious fruit flavors, and adaptability to various

french regions make it a cherished gem in French winemaking. Its vibrant flavors and smooth finish reflect the passion and precision that define the french approach to crafting exceptional wines

# Ugni Blanc

Renowned for its bright acidity and versatility, Ugni Blanc grape breed thrives in the sun-drenched vineyards of France, imparting a unique character to a range of French wines. Ugni Blanc grapes are renowned for their high levels of natural acidity. This acidity lends a refreshing and crisp quality to the wines produced from this grape.

## Baco

Baco is a hybrid grape variety combining the best attributes of both its French and American parentage. Their deep color, intense fruitiness, pronounced tannins and remarkable aging potential contribute to the spirit's bold and complex profile.

## Chardonnay

Chardonnay is often referred to as the "Queen of Grapes" due to its inherent elegance and adaptability.

It serves as the canvas for winemakers to craft a wide range of wine styles, from crisp and refreshing

to rich and full-bodied. Chardonnay is known for its fruit-forward character, offering notes of apple, pear, and citrus fruits. These fresh and lively flavors are often found in unoaked or lightly oaked Chardonnays.

## Royal Elegance

The Taste of

The distilled cognac is then aged in oak barrels for a minimum period as required by Cognac regulations.

Cognac houses are renowned for their artistry in blending eau-de-vie of varying ages and characteristics. This blending process is a closely guarded secret and is key to achieving the consistent quality and unique profiles of Cognac brands. Cognac is known for its elegant and refined flavor profile, often featuring fruity, floral, and vanilla notes, with an emphasis on balance and finesse.

The journey of Cognac begins with the careful selection of high-quality grapes, primarily Ugni Blanc that is crushed and fermented providing the base wine for cognac production.

Distillation takes place in traditional copper pot stills known as alembic stills. Cognac follows a double distillation process during which the Cognac producers put a great care in separating the clear, pure eau-de-vie from any less or sediments, ensuring that only the finest and cleanest spirits are retained.

## The Taste of Honey Dew

Armagnac tends to have a richer and more robust flavor profile, characterized by deeper fruit flavors, spice, and a stronger presence of oak due to the longer aging periods. The diversity in flavor profiles is part of what makes Armagnac a rich and complex spirit, and the presence of honey-like notes is a well-appreciated characteristic by many Armagnac enthusiasts.

Armagnac region has a wider variety of soils and climates, contributing to diverse and unique characteristics in its eau-de-vie. While the regulations of cognac production are stringent with respect to grape variety, distillation and aging process, the regulations of Armagnac production is slightly flexible.

While Cognac production primarily use ugni blanc grape variety, Armagnac allows for a more diverse range of grape varieties, including ugni blanc, folle blanche, colo bard, and sometimes Baco, which can lead to differences in flavor profiles.

Unlike Cognac, which is distilled twice in pot stills, traditional Armagnac are typically distilled once using continuous column stills, resulting in a distinct character and flavor profile.

## The Taste of Real French Brandy

Brandy is considered to be more qualitative and premium than the spirit with the title just Brandy.

In contrast to Cognac and Armagnac that has a renowned flavor profile, the flavor profile of French Brandy can vary widely based on the type of grape used and the production method. It can range from fruity and aromatic to richer and spicier profiles.

Although Brandy is a more general term and can be produced in various countries worldwide, each with its own regulations and terroir, French Brandy is a spirit associated with France like Cognac and Armagnac preserving the terroir influence of France. French Brandy can be produced in various regions of France with grape grown from France allowing greater flexibility in terms of grape varieties, terroir, distillation and aging regulations.

It should be noted that Brandy produced with the grapes varieties grown outside of France are not qualified for the title French Brandy. So the spirit with the title French
